CESAM PLATFORM

The CESAM Platform of Ghent University is a university platform aimed at building academic collaboration with Latin American institutions; it also makes the Latin American research available to the non-academic community.

CESAM PLATFORM: MISSION

- supporting the development of new initiatives in mobility and new forms of cooperation between Ghent University and Latin America
- matching the academic and administrative expertise with external know-how
- promoting the expertise and activities of Ghent University towards Latin America
- striving for impact in the region and on the external policy towards this region
